

US005830461A

United States Patent [19]

Billiar et al.

[11] Patent Number: **5,830,461**
[45] Date of Patent: **Nov. 3, 1998**

- [54] **METHODS FOR PROMOTING WOUND HEALING AND TREATING TRANSPLANT-ASSOCIATED VASCULOPATHY**
- [75] Inventors: **Timothy R. Billiar, Edith Tzeng**, both of Pittsburgh; **Larry L. Shears, II**, Bethel Park; **David A. Geller, Howard David James Edington**, both of Pittsburgh, all of Pa.
- [73] Assignee: **University of Pittsburgh of the Commonwealth System of Higher Education**, Pittsburgh, Pa.
- [21] Appl. No.: **745,375**
- [22] Filed: **Nov. 8, 1996**

Related U.S. Application Data

- [63] Continuation-in-part of Ser. No. 630,798, Apr. 10, 1996, which is a continuation-in-part of Ser. No. 265,046, Jun. 24, 1994, Pat. No. 5,658,565, and Ser. No. 465,522, Jun. 5, 1995, which is a division of Ser. No. 314,917, Sep. 28, 1994, Pat. No. 5,468,630, which is a continuation of Ser. No. 981,344, Nov. 25, 1992, abandoned.

[57] ABSTRACT

The present invention provides a method of promoting the closure of a wound in a patient. This method involves transferring exogenous iNOS to the region of the wound whereby a product of iNOS is produced in the region of the wound to promote the closure of the wound.
